

## \*\*\* QUESTION #1 \*\*\*

Hello, my name is [I]## and I'm calling from the University of Kentucky Survey Research Center. We are conducting an important study of people's attitudes about health issues for the Kentucky Injury Prevention and Research Center (KIPRC). This telephone number has been chosen at random. All answers will be anonymous and answers will not be associated with your telephone number once the interview is finished. This survey will take about 20 minutes. My instructions are to speak to an adult woman at this number who is age 18 years or older who has had the most recent birthday. Would that be you?

OR: Would you please call this person to the phone?

[INTERVIEWER: REPEAT GREETING IF NECESSARY]

## \*\*\* QUESTION #2 \*\*\*

Before we begin, I would like to remind you that your identity is not known to us. Part of this survey is about violence in intimate partner relationships; intimate partners include previous or current boyfriends, spouses, girlfriends, and cohabiting partners. I will be asking you about personal experiences. However, even if you have never experienced violence in an intimate relationship we would still like you to participate by answering some more general questions. Gaining knowledge about those who have not experienced violence is very valuable too. Your participation is completely voluntary but very important to the study.

If any question in the interview makes you feel uncomfortable or puts you at risk, you don't have to answer it. Also, if you are willing to participate but do not feel comfortable or safe doing so from this phone, I can provide you with a toll-free 800 number you can use to call us later from another location. Is it safe for you to talk right now?
