Hello, my name is [I]## and I'm calling from the University of Kentucky Survey Research Center. We are conducting an important study of people's attitudes about health issues for the Kentucky Injury Prevention and Research Center (KIPRC). This telephone number has been chosen at random. All answers will be anonymous and answers will not be associated with your telephone number once the interview is finished. My instructions are to speak to an adult woman at this number who is age 18 years or older who has had the most recent birthday. Would that be you? OR: Would you please call this person to the phone?

Before we begin, I would like to remind you that your identity is not known to us. Part of this survey is about violence in intimate partner relationships; intimate partners include previous or current boyfriends, spouses, girlfriends, and cohabiting partners. I will be asking you about personal experiences. However, even if you have never experienced violence in an intimate relationship we would still like you to participate by answering some more general questions. Gaining knowledge about those who have not experienced violence is very valuable too. Your participation is completely voluntary but very important to the study.

If any question in the interview makes you feel uncomfortable or puts you at risk, you don't have to answer it. Also, if you are

willing to participate but do not feel comfortable or safe doing so from this phone, I can provide you with a toll-free 800 number you can use to call us later from another location. Is it safe for you to talk right now?

Chronically Too Busy

I'm sorry to have caught you at a bad time. I understand that you have a busy schedule, but it's very important that we speak to busy people like yourself in order to get an accurate cross-section of the population. We would be happy to call back at a better time. We can call between noon and 4:00 p.m. and from 5:45 to 9:30 p.m. weekdays, 9:00 a.m. to 1:00 p.m. Saturdays, and 1:00 to 5:00 p.m. on Sundays (ETZ). When would be a better time to call you?

Hesitant/Suspicious/Vague

.
We have only a phone number and not any names, so all answers are anonymous. You are part of a scientifically-selected random sample of people whose opinions we are seeking for this survey. Your answers will be combined with those of other people participating in the survey and reported only as group averages (e.g., "22% of people surveyed said they like rainy days"). No individual's answers will be reported in a way that can identify them.

.
[INTERVIEWER NOTE: If the respondent remains unconvinced, offer to let them speak to the Shift Supervisor, or ask them if they would like to call during business hours to talk to the Survey Supervisor or the Director. They may call our toll-free number, 877-700-1504, 8:00 a.m. to 4:30 p.m. (ETZ) Monday through Friday. If they choose this option, set a December 25th callback with a full explanation in the callback notes, or, if they prefer to be called back after they have contacted SRC, set a callback accordingly.]

Older people's opinions are just as important in this survey as anyone else's. In order for the results to be representative of the population, we have to be sure that older people have as much chance to give their opinion as anyone else.

We are seeking only your OPINION. Even if you are not familiar with some of these issues, your opinion is still very important because we need to accurately represent the entire population, and that includes many people who aren't familiar with some of these things. The questions are not difficult, perhaps I can read a few of them to you and you can see what they are like.

(Also,) even if you are not interested in some of these issues, your opinion is still very important because we need to accurately represent the entire population, and that includes people who aren't necessarily interested in some of these things.
